Ok been kinda crazy around here this week. I have a bunch of air comments almost ready for your review, but haven't yet pulled the water ones, which I hope to do tomorrow. Ken

I agree with the separate response on GC. Kate asked Carl to set up a meeting next week on GC. I have a less hectic day tomorrow, so can look at other NPL comments.  
Thanks,  
Suzanne

**Subject:** Gen. Conf. comments on NPL

All:

Myself, Carl and Tim met with WYDEQ this morning to gather more information about their drill rig engine permits that have been issued in the UGRB ozone nonattainment area.

Referred to BLM

# Referred to BLM

## Ex. 5 - Deliberative Process

### Ex. 5 - Deliberative Process

#### Ex. 5 - Deliberative Process

In addition, the general conformity exemption regs. state that the exemption is only available for **stationary** sources. WYDEQ's drill rig permits do not consider drill rigs as stationary.

Without going any further into the weeds here, in talking with WYDEQ on the call today, their position is that their drill rig permits are suitable for an exemption from general conformity.

## Ex. 5 - Deliberative Process

## **Ex. 5 - Deliberative Process**

I am leaving at 1 pm today and won't be back in the office until Monday. Please contact Carl or Tim with any questions.

Thanks,

Scott
